 Office—69 and 71 W. Second South Street.

## WHAT HAS TO BE MET.

A prominent Saint, who has long been an officer of Box Elder County, makes no secret of the intentions of the Mormons in regard to the test oath matter. On the day of the election at Brigham City he tauntingly remarked to a Gentile as follows: "Of course we will take the oath. At least enough of us will take it to carry the elections. If but a fifth of us are necessary to insure success twenty per cent of the Mormons will take the oath, register and vote. If fifty per cent are needed, that proportion will qualify, and if one hundred per cent are required, the entire Mormon population will put in an appearance at the polls. When a Dane, who scarcely understood a word of the English language was being questioned by the judges of election, the Gentile above mentioned remarked to the officer to whom we have alluded: "Didn't you consider that an outrage? That man does not understand a word what is being said to him." The God-fearing Saint with a sardonic smile, replied: "Oh that makes no difference. He will answer 'yes, all the same.' The result verified the Saintly prediction. Well known and prominent Mormons answered, when they supposed they were being officially questioned, that they had never taken any oath which obliged them to obey an order of the head of the Church in preference to the Constitution or laws of the United States. They unhesitatingly replied that they would obey the laws in opposition to a mandate of the President of the Church of Jesus Christ of Latter-day Saints. One well-known Saint denied emphatically that he was a member of the organization known as the Mormon Church. Upon being further questioned he said: "The Government of the United States has abolished the Mormon Church. How can I be a member of an organization which has no existence?" The above is sufficient to prove that the Mormons are prepared to swallow anything in the shape of oaths, assertions or denials which may be necessary to enable them to continue for their leaders their political supremacy in this Territory. It clearly shows that no oath which could be formulated would suffice to effect the redemption of Utah by transferring the political power from disloyal to loyal hands. It demonstrates beyond peradventure the wisdom of the Democratic House of Congress in striking at the root of the evil, by wresting at once, and without circumlocutional nonsense, the local government of Utah from those who use it to sustain an institution antagonistic in every respect to the principles upon which our Republic was founded. It expresses the ignorance or treachery of the element which caused the elimination of the appointive clause in the Tucker bill, and the hollowness of the loyal professions of the apologists for the infamous work. It proves the necessity for such political organization in Utah as will bring to the front the truly patriotic and unselfish men of both parties, who will exercise their influence unitedly to offset the loudest and treacherous machinations of the few who would prostitute the loyal sentiment here to their own selfish purposes. In the meantime it is the duty of all true Americans to make the best possible use of the new law. No means should be ignored which will tend to increase the chances for success. Let us make the best fight we can under its provisions, and should we fail we will at least have proven our good faith, and demonstrated the necessity for such legislation as was offered us by the Democratic House.

## MONEY.

Hon. M. H. Slater, Secretary of the National Bi-Metallic Coinage Association, in his valuable pamphlet, entitled "A Brief Treatise on Bi-Metallicism," says: "The sum total of all the money in circulation always bears a certain ratio to the sum total of all the property in existence. This ratio is variously estimated; but, say, for example, 1 to 27. If all the property in existence should be forced to a cash sale, at the same hour, this ratio would be reduced until it would stand 1 to 1. The money would equal in amount the necessarily reduced value of the property.

The value that money represents is fixed by law; the value of the property is determined by the amount of money in existence, which may be exchanged for the property. Hence, money establishes, fixes, determines, assesses, estimates the value of property. Note the distinction between the terms, money in existence and money in circulation. Money which is hoarded in vaults is not performing its chief function as a medium of exchange for values, nor can it affect the value of property. The hoarded eagles of the miser can no more perform the functions of money than a prisoner in a dungeon can perform the duties of a member of society."

The Associated Press sends a dispatch from Portland, Oregon, in which Gov. Penneyer of that State is presented to the public in a dangerous state of indignation over the President's failure to sign the River and Harbor bill. The Oregon Governor should not allow himself so much latitude in the dangerous indignation business. It might have the sad effect of rendering Mr. Cleveland's future measures less decisive, to say nothing of the danger of prejudicing the government abroad.

The Supreme Court of the United States has said that Hopt must die. The attention of the law once called to crime and the criminal, there may be delay, but there is no escape. Three times has Hopt, the murderer, evaded the penalty of the law, but he is to die at last. Crime must be punished. Let polygamy and polygamists take notice.

MR. MUSSELMAN who has been before Judge Zane's Court, desires to say that in spite of the Asiatic, suspicious and appropriate name of "Musseleman" his offense was not colubation. Mr. Musseleman deserves little sympathy, however. His actual offense was brutal assault, and the public will probably fail to discern the dividing line between the two crimes.

It is a mooted question whether the capitalists purchasing the immense tract known as the Arkansas grant, have succeeded in obtaining any just title with it. In case they have not there will be another item ere long in regard to lands returned to the public domain. Commissioner Sparks has his weather eye level with the matter already.

It is now said that it was the "grave" appearance and the funeral intellect of Mr. Edmunds which seduced the Nation into the belief that he would immortalize himself as a tombstone of polygamy. The indignant people, however, will lay this deceit up with other republicanisms of like character, for future reference.

The labors of Mr. Edmunds on the Polygamy bill will be very acceptable to his party at large, as the Mormon despotism appeals strongly to the great Republican idea of centralization. It is now supposed that Mr. Edmunds has been making a shrewd bid for the Republican Presidential nomination.

The third annual convention of the National Oak Leather Association met in Louisville yesterday. Owing to the fact of there being so much Republican leather in course of preparation for a thorough tanning, the "grand old party" will watch the proceedings of the convention with anxious interest.

The stock of wool in the United States is said to be much larger than usual at this season of the year. This is ascribed to the steady throwing upon the market of the immense quantities of wool the Republicans have so long pulled over the eyes of the people.

The foreman of the English naval works at Chatham has been arrested by Government agents. He is accused of stealing information in regard to English naval designs and selling it to other governments. It is supposed the charge in court will be petty larceny.

It is said that the expression "pocket veto" emanated from Republican sources. This is very likely, as one of the most conspicuous effects of the little vetoes of Mr. Cleveland will be the effectual vetoing of the Republican pocket.

The next Senate shows a great Republican falling off. If Mr. Riddleberger votes with the Democrats the Chamber will be tied. Thus we have another great illustration of the "tide" of Democratic success.

The Indiana Legislature has adjourned. It failed to pass needless appropriation bills, but it did not fail to elect a Democrat to the United States Senate. Appropriation bills are a Republican necessity which a Democratic Legislature fails to recognize.

Ten Idaho Saints are to be released from the Detroit House of Correction on writs of *habeas corpus*. Mr. Edmunds is reported as being highly gratified at the circumstance, which he is disposed to regard as a direct result of his labors in relation to the polygamy law.

The Forty-ninth Congress left some important work undone, and has been accused of a want of application. This accusation can also be made to reach some of the work that it did do. The Inter-State and the Polygamy law both sadly want application.

MR. INGALLS, it is announced, will shortly visit Salt Lake City and it is in *ditto* in Washington circles that the object of the warlike Senator's western trip is to make arrangements with the Salt Lake Herald for a naval descent on Canada.

The report comes that Germany, Austria and Italy have formed an alliance, offensive and defensive. This would be a most powerful combination, and would strain the military forces of Russia and France to the utmost to meet it.

The voting of Mr. Riddleberger with the Democrats will tie the next Senate. This is but a final materialization. For to all practical intents and purposes the Senate of the United States has long been tied.

MR. TUCKER's course in this matter of polygamy has gained him the gratitude of all who believe in the two great factors of civilization, morality and progress. But then Mr. Tucker is a Democrat.

It is said that a large manufactory of rubber goods will be located here during the coming summer, attracted by the immense amount of raw material existent in the elastic Mormon conscience.

In all of the rumors of war coming so thick and fast from Europe we hear little or nothing of England. By common European consent England seems to be bracketed with Turkey.

ENGLISH estimates of Becher are various, but they are all founded on the endurance of his fame.

The day of Becher's funeral will be a day of mourning in the great cities of New York and Brooklyn.

From Eastern Republican sources it is learned that the political aspirations of Mr. James G. Blaine have congealed into an ambition to head the next Arctic exploring expedition.

JAY GOULD says that his money is a burden to him. This is scarcely to be wondered at. Money has long been the "burden" of Mr. Gould's existence.

"The modern American car stove" as the latest incendiary toast at socialistic banquets is said to have met with an enthusiastic reception.

THE Pool fever hit in New York City is over, but we notice that the individual frascos are still in great activity.

A POLITICAL deadlock is reported in England. The Czar of Russia has the key in his pocket.

## MISCELLANEOUS.

### Salt Rheum

The agonies of those who suffer from severe salt rheum are indescribable. The cleansing, healing, purifying influence of Hood's Sarsaparilla are unequalled by any other medicine. "I take pleasure in recommending Hood's Sarsaparilla, for it has done wonders for me. I had salt rheum very severely, affecting me over nearly my entire body. Only those who have suffered from this disease in its worst form can imagine the extent of my affliction. I tried many medicines, but failed to receive benefit until I took Hood's Sarsaparilla. Then the disease began to subside, the salt rheum disappeared, and now I am entirely free from the disease. My blood seems to be thoroughly purified, and my general health is greatly benefited." LYMAN ALLEN, Sexton N. E. Church, North Chicago, Ill.

"My son had salt rheum on his hands and the calves of his legs, so bad that they would crack open and bleed. He took Hood's Sarsaparilla and is entirely cured." J. B. STANTON, Mt. Vernon, Ohio.

### Agonizing Itch and Pain

disappeared, and now I am entirely free from the disease. My blood seems to be thoroughly purified, and my general health is greatly benefited." LYMAN ALLEN, Sexton N. E. Church, North Chicago, Ill.

From 108 to 135  
 "I was seriously troubled with salt rheum for three years, and receiving no benefit from medical treatment I decided to try Hood's Sarsaparilla. I am now entirely cured of salt rheum; my weight has increased from 108 lbs. to 135." MRS. ALICE SMITH, Stanton, Conn.

If you suffer from salt rheum, or any blood disease, try Hood's Sarsaparilla. It has cured many others, and will cure you.

### Hood's Sarsaparilla

Sold by all druggists. \$1; six for \$5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.  
**100 Doses One Dollar**
